

	SYSTEM REJUVENATION	TOP NOTCH TUNE-UP	SAFETY INSPECTION
<b>SAFETY &amp; HEALTH</b>			
Inspect Combustion Venting	+	+	+
Inspect Wiring & Connections	+	+	+
Test Breaker & Emergency Disconnect	+	+	+
Infrared Inspection of Heat Exchanger	+	+	+
Inspect Condensate Drain System	+	+	+
Test Visible Gas Line for Leaks	+	+	+
Test All Safety Switch Operation	+	+	+
Measure Relative Humidity of Home	+	+	+
Inspection of Ductwork Cleanliness	+	+	+
<b>BREAKDOWN PREVENTION</b>			
Measure Indoor Fan Amperage	+	+	
Measure Draft Inducer Fan Amperage	+	+	
Measure Microfarads of Capacitor	+	+	
Measure Flame Rectification	+	+	
Monitor & Test Ignition System	+	+	
Replace Thermostat Batteries	+		
<b>PERFORMANCE</b>			
Pre-Check Temperature Differential	+	+	
Measure Blower System Performance	+	+	
Measure Filtration Performance	+	+	
Evaluate Evaporator Coil Condition	+	+	
Measure & Adjust Gas Pressures	+	+	
Post-Check Proper System Operation	+	+	
Test for Refrigerant Restrictions	+		
Measure Airflow Performance & Calc	+		
Verify System Efficiency & Performance	+		
Thermal Imaging Camera Inspection	+		
<b>CLEANING</b>			
Clean Flame Sensor	+	+	
Clean Burners	+	+	
Clean & Test Blower Motor	+	+	
Clean Condensate Drain System	+		
Clean Blower Cabinet of Furnace	+		
Clean Furnace Condensate System	+		
Level & Clean Thermostat	+		
Clean & Test Indoor Air Quality System	+
