

	SYSTEM REJUVENATION	TOP NOTCH TUNE-UP	SAFETY INSPECTION
SAFETY & HEALTH			
Infrared Inspection of Heat Exchanger	+	+	+
Inspect AC for Level	+	+	+
Inspect Wiring & Connections	+	+	+
Inspection of Ductwork Cleanliness	+	+	+
Test Breaker & Emergency Disconnect	+	+	+
Inspect and Seal AC Wall Penetrations	+	+	+
Inspect Outdoor Condensing Coils	+	+	+
Inspect Condensate Drain System	+	+	+
Test All Safety Switch Operation	+	+	+
Measure Relative Humidity of Home	+	+	+
BREAKDOWN PREVENTION			
Measure Outdoor Fan Amperage	+	+	
Measure Compressor Amperage	+	+	
Measure Microfarads of Capacitor	+	+	
Inspect Contactor Operation	+	+	
Replace Thermostat Batteries	+		
PERFORMANCE			
Pre-Check Temperature Differential	+	+	
Measure Blower System Performance	+	+	
Inspect Refrigerant Line Insulation	+	+	
Measure Filtration Performance	+	+	
Evaluate Evaporator Coil Condition	+	+	
Post-Check Proper System Operation	+	+	
Measure Refrigerant Charge & Test Restrictions	+		
Verify System Efficiency & Performance	+		
Measure Airflow and Static Pressure	+		
Complete Duct Capacity Calculations	+		
Thermal Imaging Camera Inspection	+		
CLEANING			
Clean & Test Blower Motor	+	+	
Clean Interior Cabinet of Outdoor Unit	+	+	
Chemically Clean Outdoor Condensing Coils	+	+	
Clean & Purge Condensate Drain	+		
Level & Clean Thermostat	+		
Clean & Test Indoor Air Quality System	+		
Clean Disconnect / Whip	+
